SALES CATALOG NO. B-86-45 (NEW MATERIAL)

February 1, 1945

**MATERIAL:** SWITCHES, CONTROLLER, RELAYS, FUSES  
CAPACITORS, OIL SEALS, HEATING ELEMENTS  
AND STRAPS

**LOCATION:** Ford Instrument Co., Warehouse  
30th St. & Borden Avenue  
Long Island City, New York, N.Y.

**INSPECTION:** Samples on display at Room 407, 342 Madison Ave.  
New York, N.Y. For inspection of material  
contact Mr. H. W. Fosberg, at Ford Instrument Co.  
Tel: Stillwell 4-9000, Ext. 361  
9:00 A.M. - 4:00 P.M., Monday through Friday.

**TIME AND PLACE OF SALE:** 10:00 A.M. (EWT), Thursday, February 15, 1945.  
Navy Material Redistribution & Disposal Office,  
342 Madison Avenue, New York 17, N.Y.

**MAILING OF BIDS:** Mail to: Officer-in-Charge, Room 407, Navy Material  
Redistribution & Disposal Office, 342 Madison Avenue,  
New York 17, N.Y.

The Navy procedures are direct, so we can only give you the information shown above, where you can write for complete descriptions and forms.

If you do place a bid, please advise us immediately stating the price which you offered for each item.

If you do not place a bid, advise us so that we can make these properties available to Cooperatives in the Middle West area.

If you are successful in obtaining any of these properties, we would also appreciate your advising us how many you obtained and price paid, so that we can keep our records straight. Also, mail us copy of your check transmittal.

It is suggested that you place your bid in the amount of 55% of the normal retail cost of these properties.

In all communications to REA concerning these items please refer to SWP Release #28a

**SURPLUS WAR PROPERTY**  
**ITEMS OF INTEREST TO REA BORROWERS**  
**SPEEDY ACTION ESSENTIAL**  
**IF YOU DESIRE THESE MATERIALS**

February 17, 1945

Location: Properties are stored at the Army Engineers Depot  
Kearney, Nebraska and can be inspected there.

Condition: Used - fair to good

Price: To be bid on at open sale Wednesday, February 21, 1945

The following properties have been inspected by one of the REA Cooperative's representatives. The descriptions given below are as reported by him. Any Cooperative interested in this equipment should arrange to send a representative to Kearney, Nebraska and inspect the properties.

February 20, 1945 has been set aside by the Treasury Procurement as inspection day. On February 21, a public auction of the properties will be held at the Armory at Kearney, Nebraska. To save travel costs, several Cooperatives may desire to select one as representative for the group.

It is recommended that not more than 55% of new price be bid for any item.

It is also reported that there are 50 to 80 pole trailers that are to be put on sale very shortly. Any Cooperative interested in pole trailers should inspect these while there, and check out the ones they want.

Please notify us of any items you pick out that you are interested in, so we can take it up with Treasury Procurement and negotiate price for same.

SALE NO.	DESCRIPTION
462	Air Compressor USA 9972404 Leroy 4 Cylinder Gas No. Serial 2 Cycle. 1 Stage with Tanks gas driven. One motor crank mounted on four solid rubber tired wheels with pull tongue. Outside looks fair. About 100 cu. ft.
467	Air Compressor 105 Cu. ft. 618032 Sullivan Model WK-60 Serial No. 22737 Buda Gas 243076A. Motor Serial 22737 Portable mounted on four steel wheels one stage model 6848.
481	Air Compressor 110-18519 Schramm Serial 5-6 105007 Buda Gas Four Cylinder Model ETS50 3 cycle two stage gas driven trailer mounted. 105 Cu. ft. Wiring battery side panels and tongue are missing. Chassis with four rubber tires and tubes
796	Tractor 110-13037 2-905994 Allis Chalmers Model L Serial 12509 Year: 1937 Allis Chalmers gas. 6 cycle crawler 76.01 HP 68" gauge 28" track face grill and battery missing.

This 25' is part of total head shown.

These items have been found suitable for REA use. Orders will be processed  
in order of receipt, subject to prior sale.

*J. Warner Pyles*

J. Warner Pyles, Head  
Surplus War Property Office  
Cooperatives' Operations Division

NOTE 2: At first examination of Items 86 & 87, it might appear that the capacities  
of these pumps are not suitable for your needs. We are therefore giving  
the following explanation as an example to show how the capacities could  
be varied with different depth of settings:

Item 86: If the depth of setting is shortened from 200' to 80' and open discharge  
were used, the capacity of this pump would be approximately 195 GPM.

Item 87: If the setting is deepened to 80' instead of 15' and open discharge is  
used, the capacity of the pump would be approximately 800 GPM.
